# **A ONE DAY WORKSHOP IN PRINTMAKING WITH JULIE HUTCHINSON**

## **This workshop will cover**

Some of the more easily accessible methods of artistic printmaking such as printing from alternative objects, stamping, mono print, linocut style printing and silk screen printing.

Groups of two could move from one to the other with forty minutes approx at each.

The workshop is designed to give a taste of each method with emphasis on fun and creativity. Using the above methods we will create cards, print wrapping paper and fabric or t-shirts and also create individual artworks using found objects.

Bring inspiration in the form of artworks and simple graphics suitable for a printing subject. I will have some graphics available as well.
